# BUSINESS CONTINUITY SOLUTIONS

UPS systems that ensure you stay ON\_

Salvo presents solutions that are current and apt for the specific needs of business houses and commercial establishments with its comprehensive product portfolio that is developed and designed to increasing end-user revenues and profitability, with strong focus on technology and customers make Salvo Solutions the winner when it comes to providing power protection solutions for business continuity. Each Salvo UPS is designed to perform and deliver maximum so you stay switched on.

# INTEGRAL PART OF THE VALUE CHAIN OF YOUR BUSINESS.

Salvo UPS protection system is an integral part of the value chain of your business. Its level of availability and Power Quality have a direct effect on the service continuity of your operations. Your productivity, the quality of your products and services, the competitiveness of your company and the security of your site are dependent on the smooth operation of your UPS. Failure is no option.

# CRITICAL APPLICATION SOLUTION TO STAY AHEAD.

Critical applications whose failure would lead to substantial losses, not always of a financial nature, are increasingly requiring protection from process interruption. Salvo specialises in evaluating all the issues and plan a UPS system that is best suited to support critical applications that are key to most organisations. The UPS is guaranteed to protect the upstream sensitive equipments and compatible to generators. The technology used for critical applications is tested to achieving productivity and generating profit. Salvo UPS provide clean power while preventing power outages from interfering with this process it also protects from failures caused by other power anomalies. The UPS Systems are designed and developed to achieve clean, continuous power assuring business continuity solutions.

# INNOVATION THAT GUARANTEES PEACE OF MIND.

Salvo Solutions has always placed innovation at the heart of its business. And growth by providing customers with better services. Power protection solutions that improve business continuity. Salvo UPS systems are designed to provide its customers with total protection throughout the lifetime of their mission-critical installations. Quality installation standards with industry specific guidelines ensures efficient performance and safe protection of equipments. Salvo Solutions with its vast experience on customer sites will bring you peace of mind.

# YEARS OF EXCELLENCE WITH SATISFIED CUSTOMERS. ITS ADVANTAGE SALVO.
